

Education and Training

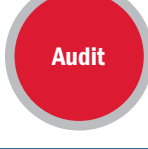

from DRI International

Train
Prepare
Recover

Career tracks: Educate. Certify. Connect.

DRI International offers its world-class training courses in a number of ways that are sure to meet your needs – in our classes, at your site, and online. We offer training in business continuity planning and risk management, as well as specialized courses in healthcare, public sector planning, and audit.

The first step toward any DRI certification is education. Experienced instructors provide both theory and practice, with real-world examples. Our training options are flexible, comprehensive. Training for you and your team in your office is easy and effective. If you don't see what you're looking for here, please contact us about our customized training options.

The Value of Certification

As the most widely recognized and respected business continuity certification in the world, a DRI certification is an affirmation of your professional knowledge and experience.

- Show your dedication to your profession. Establish yourself as a subject matter expert in your organization.
- Be more attractive to current and potential employers who value continuing education. Certified professionals seeking new positions are sought-after candidates.
- Increase your earning potential. Independent studies have confirmed that a DRI certification helps professionals working in the business continuity industry command higher salaries versus non-certified professionals.
- Be a part of the DRI community, with special access to events, thought-leadership, networking, and more.

About Us

Disaster Recovery Institute International (DRI) is the leading nonprofit that helps organizations around the world prepare for and recover from disasters by providing education, accreditation, and thought leadership in business continuity and related fields.
